## **FAQ**

### **Why is this new procedure being introduced ?**

The biggest issue the club has each season is entering teams without a confirmed coach and then trying to find a coach while the season is active. This causes frustrations and disgruntlement for all involved and a lot of extra time and effort for the team coordinators and other club members. The whole process is about removing the uncertainty around who is playing and who is coaching and the pain associated with that uncertainty.

### **How can I guarantee my child will be placed in a team ?**

That is easy – coach a team ! or recruit somebody to coach your child’s team.

This is the part where you can really help the club. If you have some basketball experience or are just willing to give it a go then please consider coaching a team. You may have a brother/sister/relative/friend who is suitable – ask them if they will coach.

If everybody in the club actively looked for somebody to coach a team all our coaching issues would be solved.

### **How many teams will be entered in each age group ?**

The number of teams is totally dependent on the number of coaches confirmed for that age group. If we have enough players for 5 teams but only 3 coaches we will only enter 3 teams.

### **How are the teams selected ?**

Team selections will be done by the age group coaches and the teams coordinator.

If extra teams are entered after the initial selection there will be some reshuffling of the players amongst the teams.

### **What if my child is not selected in a team ?**

They will be placed on a waiting list and if a position becomes available the coach will select a player from the waiting list.

BUT if we had another coach we would enter another team and an extra 7 or 8 players would get a game. Refer to the question above “**How can I guarantee my child will be placed in a team?**”

### **I thought the club would provide a coach !**

The club is you, me and everybody else who plays or has a child who plays. Some of our coaches are senior players but the majority are the parents of players. All are volunteers willing to give up their time to allow the kids to have a game of basketball. How many kids can play is dependent on how many parents are willing to volunteer.

### **What are the commitments and benefits of coaching a team ?**

#### Commitments and duties

There is 1 game and 1 training session per week both of which are usually 1 hour duration.

There will probably be 1 coaches meeting per season.

Work with the club and team coordinators as the primary contact between the club and the team.

#### Benefits and assistance

Free LBC club membership for your family.

Free coaching courses as available. Generally there would be a level 0 and level 1 course each year.

Assistance will be provided to beginner coaches if requested. All you have to do is ask.
